Jennie Dety of Middletown Shoots Herself In the Grand Hotel, Indianapolis. INDIANAPOLIS, March 12 .- A young lady called at the Grand hotel yesterday morning and registered as "Jennie Doty, Middletown, O." She had no baggage and requested a good room, saying she was willing to pay \$3 per day. Late in the afternoon the report of a pistol came from the room, the door was forced and Miss Doty was discovered lying across the bed, with a bullet hole in her temple and a 22-caliber revolver lying on the floor. She left a note saying: "To whom it may coneern: Hold no autopsy, but bury me in my wedding clothes as I am now. Notify R. Alice Doty, 10 Clinton street, Middletown, O." Two letters were found, one addressed Alice Doty and the other to Mrs. Levy Edliet, Wood-The uncoscious bury, Ontario, Can. woman was taken to the hospital where

MIDDLETOWN, O., March 12 .- This city was startled yesterday afternoon when it was announced that Miss Alice Doty had received a telegram that her niece, Miss Jennie Doty had committed suicide at Indianapolis. Miss Jennie Doty was well and favorably known in this city and was seen last evening taking a ride on her bicycle. She was employe of the Miami bievele works of this city. Mr. Cousins when seen said he knew no reason why she should committed the rash act. He left this evening on the first train for Indianapolis to bring the body home.

CHICAGO, March 12. - Mrs. Bragg. who was mysterionsly shot in her home, is in a fair way of recovery. She says there was no one in the house but she and Josephine. She also declines to say who did the shooting, but says it was not Josephine. She sent for her attorney and had a new will drawn up, giving explicit instructions to leave Josephine's name out of it.

WILL SUPPORT LEE

Consul General Asked to Remain at His Post In Havana.

PROBABLE NEW AMBASSADORS.

New Tariff Wool Schedule-Senators Appointed by Governors Where Legislature Had Opportunity to Elect Will Not Be Admitted to Seats-Bureau of Statistics Monthly Export Statement.

WASHINGTON, March 12.-Secretary Sherman has cabled to Consul General Lee that every reasonable demand or request he may make of the Spanish authorities in Cuba will be supported by all the power of the United States

government. The first dispatch received by the new secretary of state from General Lee, outside of the ordinary routine, was brief and simple, asking what he could expect in the way of being relieved from further service at Havana, and calling attention to a desire heretofore expressed that he might be permitted to return home.

Secretary Sherman took the dispatch to the executive mansion. Afterwards he cabled to General Lee asking him to continue at his post. He was assured of fair treatment by the administration, and told that his remaining as consul general would be regarded by the pres-

ident as a personal favor. General Lee cabled back that he had found it not only difficult but at times impossible to furnish American citizens that degree of protection to which he felt them entitled. He had often been humiliated in the attempted discharge of his duties. He suggested that a United States warship in the harbor of Havana would be of the greatest assistance to him and asked how far the government would support him.

Secretary Sherman replied that his recommendation concerning a warship would be given early and careful consideration, and if necessary an adequate naval force would be sent to Cuben tion had asked for a 12 cent duty on waters. He added that he has been assured that hereafter all reasonable demands submitted by the consul general would be respected by the representatives of Spain in Cuba, but if they were not, he assured General Lee that this government would support him to the extent of its power.

AMBASSADORS.

Nominations May Go to the Senate Next Tuesday. WASHINGTON, March 12.-President

McKinley's nominations of four ambassadors, which have been anxiously will be as follows:

COLONEL JOHN HAY of Illinois, ambassador to Great Britain. GENERAL HORACE PORTER of New York,

ambassador to France Ex-GOVERNOR MERRIAM of Minnesota ambassador to Germany

HON, WILLIAM F. DRAPER of Massachu setts, ambassador to Italy. The first two nominations are re-

garded as settled beyond further question, yet after 20 years of public service the president never considers a thing done until the last step has been taken, and these two nominations will be considered open until the papers are sent to The tendencies toward Governor Mer-

riam for the German mission, and ex-Representative Draper for Italy are regarded by persons well informed as so strong that little doubt remains as to their being on the list sent to the senate.

WILL NOT BE ADMITTED. Senators Appointed From States Where

Legislatures Had Opportunity to Elect. WASHINGTON, March 12.-As a result of the several conferences which have been held, not only by Republican senators, but by the Democrats, it may be definitely said that the men who have been appointed by the governors, in states where legislatures have had an opportunity to elect a senator, will not be admitted. The Republican mantaken by her aunt at the age of six agers say that it would be a fruitless weeks to bring up. Miss Alice Doty is waste of time to bring the cases before prostrated over the occurrence and in the senate, as, even after a debate, of charge of her physician who will allow which no one could predict the ending, no one to see her. It is reported that it is not at all likely that a favorable Jennie Doty had been disappointed in vote could be expected. The men who a love affair with Oliver Cousins, an come to Washington with appointment; and long has been recognized as leader time cannot be given to a discussion of their cases and that the legislatures which have failed to elect must be 10sponsible for the vacancies in the states' representation.

NEW TARIEF.

Wool Schedule Not Complete - Rates Agreed Upon so Far.

Washington, March 12,-The Republican members of the ways and means committee devoted yesterday to the consideration of the wool schedule of the tariff bill and although considerable progress was made one or two more days will be required to finish it. Foremost in importance of the work done yesterday was the practical readoption of the McKinley rates on wool. Raw wool of class one, which includes merino, down clothing wools and others of that quality are made dutiable at 11 cents a pound, wools of class two, which includes Leicester, Cotswald and Linco'nshire, at 12 cents a pound, and the washed wools of these classes at 22 and 24 cents and scoured at 33 and 36 cents a pound. The McKinley rate of 32 per cent ad valorem on wools of the third class as carpet wool is retained.

The classification of wools was somewhat changed by raising a few varieties formerly classed as carpet wools to the clothing wool classes. Among them China lambs wool, Egyptian and Mo-

CORBETT AND FITZSIMMONS.

Dan Stuart Prevents a Rupture Regard. ing Rules.

Carson, Nev., March 12.-For a time yesterday it looked as if there would be a regular row between the camps of the fighters, regarding the interpretation of the rules of the ring made by Mr. Siler. Dan Stuart, however, took matters in his own hands, and averted the threatened storm. The main obstacle in the way of pulling off the fight without a squabble was Fitzsimmons. Stuart drove out to Fitzsimmons' ranch and had a talk with the lanky fighter.

"The only thing for you to do Fitzsimmons," said Stuart, "is to come to some agreement on this thing and the sooner you do it the better it will be for all concerned. What we want and suit you both, and something that will be fair to you both. Now, I suggest that one of your men and one of Corbett's men meet me at my office and we can talk the matter over and see if some agreement cannot be reached.'

"That suits me," replied Fitzsimmons, "I want nothing but what is fair to both and if I have a man present when the agreement is made, that is all I can ask

Stuart left the Fitzsimmons camp with the positive assurance that Fitzsimmons will be represented at the con-ference in his office late today. The consent of the Corbett people was obtained without any trouble. James J. Corbett had intended to send a letter to George Siler, the referee of the fight, regarding his opinion of the latter's construction of Marquis of Queensberry rules, but the plan for a conference changed matters.

"I am not going to say anything at the present," said Corbett, "but the conference will settle things. IMPORTANT DECISION.

Judgment For a Beneficiary Against the Knights of Pythias.

SPRINGFIELD, Ills., March 12.-Judge Shirley, in the Sangamon circuit court, has made an important decision in an insurance case. The case was that of Mrs. Louise Henry, who sued the supreme lodge, Knights of Pythias, of the world for \$3,000 insurance on the life of her husband, Charles Henry. The defense was that a by-law of the supreme lodge exempted suicides from benefits from the insurance, but the plaintiff proved that the by-law was not made by the supreme lodge, but by the board of control, and then ratified by the supreme lodge. Judge Shirley held the by-law was not binding on Henry un-

less the supreme lodge made it, and instructed the jury to find for Mrs. Henry.

DAILY.

FRIDAY, MARCH 13, 1897.

OWEEKLY. me Year in Advance

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

REPORTS from Cuba indicate that Weyler has been authorized to end the war in Cuba immediately on any terms even to selling the island to the insurgents if necessary.

THE city council did well last night in passing a curfew ordinance. The sen iment is very general in favor of the ordinance. It will now rest on the police officers to see that it is properly enforced as soon as it becomes operative by proper publication.

A GREAT majority of the people o' the United States want the tariff question settled speedily by the special session of congress. The quicker this is done and the deficit in the treasury stopped, the sooner will business revive and people rejoice in the old time prosperity

ONE reason why we may expect good times to return is that everybody is expecting them and preparing for then The people, democrats and populists as well as republicans are feeling more hopeful of the situation than they have done during the last four years.

McKinley is selecting his official as sistants with a great deal of care and with too much deliberation to suit the anxious office seekers. The country has approved his course thus far and the people have full confidence in the president's ability to do the best thing for them all along.

During the last four years the bonded debt of the United States has been increased \$262,000,000 by the bond sales. This sum will not all be paid off during the next four years but we can rest assured that it will not be increased by a single dollar. It is not the republican program to issue bonds in time of peace

No people can be insufferably op. pressed by hard times who can spend a million do'lars or more on a prize fight in this most distressful month of the twelve-and that's what the American people are just about to do. It is within a conservative estimate to place the cost of the Carson City mill at \$1,000.000. This includes the cost of providing place and the cost of getting to it, as well as the expense connected with securing the principals.

THE St. Louis Globe-Democrat says the opening of the spring wholesale trade in that city has surpassed all expectations and all previous years. "The spring of 1897," it says, "has proved a red letter season in the city's commercial history." St. Louis has a large Southern trade, and this moves some what earlier than Northern trade. "The buyers from the extreme South," says the paper, "have, as a rule, made their purchases and left for home. And these purchases were much heavier than any they made in years past. The general feeling of prosperity which prevails in the South and West has caused the merchants to lay in exceptionally large stock." The general conditions which have caused this improvement in the trade of one city ought to be felt bene ficially in all.

ALREADY our Cuban policy seems to be clearing up. There is not that air of mystery about the arrangements that the Cleveland administration constantly elieves that the people should know that arrangements have been made with the Spanish authorities concerning he capture and treatment of allege merican citizens. All alleged Amerian citizens arrested with arms in their ands are to be tried by the tribunal esignated by treaty, while those Amer ans who are believed to be simply uisances are to be turned over to the United States consul-general to be sent out of the country. The Spanish auhorities evidently realize that there is new hand in charge of the government and that practices which were permitted under the Cleveland administration will not be attempted now

When bilious or costive, eat a Casca ret, candy cathartic, cure guaranteed

Lydia E. Pinkham's Vegetable Compound Will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure Backache. It has cured more cases of leucorrhœa by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors. Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick headache. Mrs. Pinkham's Sanative Wash is of great value for local application.

REPAIR THE ROADS.

Many of the gravel roads and bridges in the county are badly out of repar since the recent rains, causing much nconvenience. It is the duty of the county commissioners to look after having repairs made as rapidly as poss ble. It is especially the duty of Commissione: Buhner to see that the roads entering Seymour are made passable at an early day. It is not necessary that these should be left until all the others in the county are repaired. A force of men should be put to work making the repairs now and Mr. Buhner should see that this is done without delay.

THE present city administration is making an excellent record. The interest of the city are not neglected by these men whon the people have chosen as their official representatives. They do business in a business 1 ke way as evinced by the council meeting last night. They administer the affirs of the city in an economical manner and at the same time are making many needed and valuable improvements.

IDENTIFIED IN ADVANCE.

Man Was Not Her Husband.

Notwithstanding she was not a dame of high degree, she was a woman of character, and there was a peculiar aggressiveness in the freckle on her nose which made the police officers on duty at the station house step around lively when she called on a matter of business. "I understand," she said to the ser-

geant, "that there's the body of a man waiting to be identified here.' "It is at the morgue, madam," responded the sergeant, but with more suavity than is common.

"Well, my husband hasn't been at home for three days, and I thought it might be him. Can you tell me what he looks like?"

"Yes; but you could get a good deal more satisfaction by going to the morgue yourself, ma'am.'

"I suppose I could," she sighed as if she felt sure she would not identify the remains as those of her husband. "Was "Oh, no, ma'am," exclaimed the ser-

geant. "He died suddenly. The patrolman saw him fall on the street." "Died sudden, dld he?" she asked with interest. "Yes, ma'am,"

Her tone indicated that she thought the police were to blame in some way. "Well," she said, "there's no use in my going to the morgue if that's the case. It ain't my husband. He never done anything sudden in his life. He's the slowest man on earth. Goodby," and she walked out of the station house as if she were sorry about something.-Washington Star.

And Once She Railed at Clubs.

She sighed deeply as she picked up her engagement book and began idly turning over the leaves.

"I'm utterly worn out," she said, 'and tomorrow afternoon our Cinch club meets too."

"Better resign," he returned. "Oh, I couldn't do that if I want to be in the swim," she protested. "Besides I enjoy the Cinch club more than I do the Whist club, and if I felt that I could resign from anything I would leave that-or-or the Shakespeare ept up. Secretary Sherman rightly club. I do get awfully tired of Shakespeare sometimes."

"I should think you would," he an

"The Physical Culture club wearies me at times too," she added. "I think it calls for a little too much exertion from one who has so much else to do, but it's all the rage now. Then there's the Cooking club, and the Literary club, and the Political Science club, and the Bicycle club, and the Dress Reform club, and the Dancing club, and the two charity associations, and the gymnasium class, and the Debating club, and the Sewing society. I'm beginning to think there are too many."

"On the contrary," he replied thoughtfully, "I think you need one more, and I would suggest a hickory She didn't speak to him for half a

BOWLING GREEN, O., March 12 .-Mayor Campbell went on a spree and was placed in the city lockup. He has been a strong advocate of temperance and on several occasions has criticised the police for not enforcing the closing ordinance. He was a reformed tippler. He was placed in the cell with an unfortunate fellow he had fined and given 20 days in the works. The mayor was insensible for some time and was surprised when he woke up. In court he fined himself in order to avoid the notoriety of going before a justice. The public is very wrath that the official dignity of the town has been disgraced. of "Trotty," a pet name given to her by her father when she was a baby and which has been applied to her ever since. "Trotty" was fairly idolized by her father, and she was deeply interested in his literary work. One of his most successful books bears the following dedication: "To my severest critic, my most loyal admirer and my only daughter, Mary French Field,

Miss Field has prepared for her work by a year's study under the instruction of a prominent Delsartean teacher. She has been carefully educated, too, having studied in Germany. She will go out under the management of George H. Yenowine, who was the manager for many years of her father's tours as well as his intimate friend. Scores of engagements have already been offered and her success is confidently expected. Her debut will probably be made in Cincinnati.

Miss Field will give readings from her father's works exclusively, and her repertory will include both poetry and prose. She has frequently entertained the members of her family and friends by reciting these selections, which she is said to give with a good deal of sympathy and delicate appreciation. Her object is to add to the family income, for while Mr. Field left a fine home, a magnificent library and almost a fortune in curios, he had accumulated no now believed that instead of highway large amount of money, and the Field family has been dependent upon the royalties from several books which bring gated by revenge. Warrants have been in a steady but hardly a sufficient income. Miss Field, with praiseworthy pluck, has determined to make her own vay in the world.

THE INDIANAPOLIS NEWS

A Short History of Indiana's Greatest Newspaper.

Whatever excels interests. The loftiest mountain, the longest river, the largest city. Yet keener interest attaches to the greatest achievements of men-in oratory, statesmanship or war. tween newspapers, demanding the greatest diversity of gifts, of knowledge and sagacity. In other fields the decision is doubtful, but in journalism the popular verdict is practically registered each day in the subscription list-a sort of Australian Ballot System. This test shows The Indianapolis News to have more bona fide readers than any other four Indiana Dailies combined. This makes good the above title head. The whole State may indulge pride in another point scored by The News: it is conceded to have more circulation proportioned to population than any other American Daily. Whether this signifies greater enterprise in The News or a more intelligent reading people, or both is a question. No phenomenon exists without its adequate cause. The News itself gives two main reasons as

News itself gives two main reasons as ioliows;

(I) When The News began, twenty-eight years ago, every paper had its political alkance, slavishly espousing one party with its principles and candidates against all others, looking to that party in turn for support and patronage; the highest ambition was the organship of its party in State, district, county or neighborhood. The News believed that such relationship not only brased the editorial mind, but unconsciously, if not consciously, tinted and colored the news columns, leading to the magnifying of what tended to help, and minimizing or suppressing what hurt the party. The News, therefore, swung loose from all entanglements and blazed a new way—absolute independence, not neutrality, which means the opposite; criticised men or measures of either party; always took sides, with a choice even between evils; distinguished between the freedom and slavery of independence; not hesitating to ally itself with either party in turn to bring in reforms or break down abuses. While this course meant no political patronage and usually the anger of both parties at the same time, it found marvelous response in the universal American instinct of independent thought. It compelled respect and opened the door for readers in the ranks of all parties. This meant preponderance of circulation, which, in turn, means preponderance of advertising. (2) The News was the first 2-cent paper in the West, all others 5 cents. Against universal prophecy that it could nixt live at such a price, it is now 25 per cent. larger, taking the six week day issues together, than any other Indiana daily, and sells at 10 cents a week delivered anywhere by carrier or mail, postpaid, against 15 cents a week delivered for the next best Indiana daily. No other paper in the State, at whatever price, now presends to furnish equal quantity and scope of intelligence—a voluzae of telegraphic news and correspondence from all quarters of the globe; a harvest of State happenings; market quotations for the legal professi

It is estimated that not less than 150,-000 people read The News every day. It maintains for the people cheap rate 'Wanted' columns for advertising, by which millions of property changes hands annually without the owners ever seeing each other. Almost all have something to sell, trade or rent: a horse, cow, wagon, farm, mill or store, etc., etc. Express it in as few words as possible, then count every word and send as many cents as there are words to The News and see the result. Or if preferred write out what you want and they will phrase the advertisement for you and return with the price. Address POLIS NEWS.

Death of Miss Maud Deputy.

We received word last evening stating that Miss Maud Deputy, of Seymour, died at 2 o'clock, Wednesday afternoon, March 10, 1897, on the old homestead farm in Jennings county after a serious illness of three weeks aged twenty six years. Deceased was for some time in charge of a case in the REPUULICAN office. She was held in high esteem by all that knew her. She united with the M. E. church here under the pastorate of Rev. J. M. Baxter and was devoted to her religious duties n the church. Her mother and sister, Miss Adda, who reside here have the tenderest sympathy of their many friends. The funeral was set for this afternoon at Mt. Zion. Rev. J. M Baxter went down and conducted the religious exercises.

HE ANSWERED THE QUESTION.

General Sheridan Explains What Is the Matter With the Democratic Party.

Some years ago, while General George A. Sheridan was addressing a great audience in Coveland, a man yelled out to him, What is the matter with the Democratic party anyhow?" Sheridan dropped the line of argument he was pursuing, turned toward the man and replied as follows: "What is the matter with the Democratic party? I will tell you, my friend. The Democratic party was born under planets that were in opposition. It lives in the objective case Like a mule, it has no pride of ancestry. no hope of posterity. It never originates anything. It always shines by borrowed light. Democracy has never been joined in honest wedlock to a principle, but lived for years in open adultery with a harlot called slavery, lived with her till she died of corruption and was buried amid the sobs and groans of her para-

"The atmosphere that surrounds Democracy is full of noxious vapors that breed moral pestilence and death. The sun never shines through it, vice seeks its shadow, and corruption grows lusty under its unholy influence. Springs of purity are never found in Democracy. Its waters are torpid, lifeless, covered with the filth and scum with which stagnant pools and waveless waters always offend the eyes of men. The soil which Democracy has cultivated has failed to yield barvests of value to the nation, but has given crops of worthless

weeds and briers. "Democracy has no love of country, believes in states instead of nation, drives loyalty from its doors and welcomes treason to its habitation, holds the deeds of our soldiers and sailors as naught, strives to blacken the names of our heroes, weeps over the lost cause, hates the blue and loves the gray, stabs loyalty in the back, binds up the wounds of treason and speaks words of hope and comfort to its devotees, applauds when helpless blacks are stricken down in the south and caresses the hands red with their innocent blood, denies the right of American citizens to make homes for themselves in the south, justifies the man who shoots them down or drives them out.

"Democracy is a curse to the land, the source of our bitterest woes, the haven where vice finds friends and crime its apologists and defenders. Democracy is original sin let loose to rend and destroy, is the spirit of evil filling the swine of the land, the incarnation of unholiness, the child of the devil. Its home should be in that outer darkness where there are weeping and wailing and gnashing of teeth. Such, faintly ictured, my friend, is what is the matter with the Democratic party." Sheridan picked up the thread of his speech at the point where he had been interrupted. He was asked no more questions during the evening.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-feur hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order What to do.

There is comfort in the knowlegde so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remely fulfills every wish in relieving pain in back, kidneys, liver, bladder and every art of the urinary passages. It corrects inablility to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of be ing compelled to get up many times during the night to urinate. OHIO GIRL ATTEMPTS SUICIDE.

News at Middietown. MIDDLETOWN, O., March 12 .- This city was startled yesterday afternoon when it was announced that Miss Alice Doty had received a telegram that her niece, Miss Jennie Doty had committed suicide at Indianapolis. Miss Jennie Doty was well and favorably known in this city and was seen last evening taking a ride on her bicycle. She was taken by her aunt at the age of six weeks to bring up. Miss Alice Doty is waste of time to bring the cases before prostrated over the occurrence and in the senate, as, even after a debate, of charge of her physician who will allow which no one could predict the ending, no one to see her. Consul General Asked to Remain at

The first dispatch received by the new secretary of state from General Lee, outside of the ordinary routine, was brief and simple, asking what he could expect in the way of being relieved from further service at Havana, and calling attention to a desire heretofore expressed that he might be permitted to return home.

Secretary Sherman took the dispatch to the executive mansion. Afterwards he cabled to General Lee asking him to continue at his post. He was assured of fair treatment by the administration, and told that his remaining as consul general would be regarded by the president as a personal favor.

General Lee cabled back that he had found it not only difficult but at times impossible to furnish American citizens that degree of protection to which he felt them entitled. He had often been humiliated in the attempted discharge of his duties. He suggested that a United States warship in the harbor of Havana would be of the greatest assistance to him and asked how far the government would support him.

Secretary Sherman replied that his recommendation concerning a warship would be given early and careful consideration, and if necessary an adequate naval force would be sent to Cuban waters. He added that he has been aswaters. He added that he has been assured that hereafter all reasonable demands submitted by the consul general would be respected by the representatives of Spain in Cuba, but if they were not, he assured General Lee that this government would support him to the extent of its power.

Senators Appointed From States Where Legislatures Had Opportunity to Elect. Washington, March 12.-As a result of the several conferences which have been held, not only by Republican senators, but by the Democrats, it may be definitely said that the men who have been appointed by the governors, in states where legislatures have had an opportunity to elect a senator, will not be admitted. The Republican man-

agers say that it would be a fruitless come to Washington with appointment: time cannot be given to a discussion of their cases and that the legislatures which have failed to elect must be 10sponsible for the vacancies in the states' representation.

NEW TARIFF.

Wool Schedule Not Complete - Rates Agreed Upon so Far.

WASHINGTON, March 12,-The Republican members of the ways and means committee devoted yesterday to the consideration of the wool schedule of the tariff bill and although considerable progress was made one or two more days will be required to finish it. Foremost in importance of the work done yesterday was the practical readoption of the McKinley rates on wool. Raw wool of class one, which includes merino, down clothing wools and others of that quality are made dutiable at 11 cents a pound, wools of class two, which includes Leicester, Cotswald and Linco'nshire, at 12 cents a pound, and the washed wools of these classes at 22 and 24 cents and scoured at 33 and 36 cents a pound. The McKinley rate of 32 per cent ad valorem on wools of the third class as carpet wool is retained.

The classification of wools was somewhat changed by raising a few varieties formerly classed as carpet wools to the clothing wool classes. Among them: China lambs wool, Egyptian and Mo-

"The only thing for you to do Fitzsimmons," said Stuart, "is to come to some agreement on this thing and the sooner you do it the better it will be for all concerned. What we want and all that Siler wants, is for you and Corsuit you both, and something that will be fair to you both. Now, I suggest that one of your men and one of Corbett's men meet me at my office and we can talk the matter over and see if some

agreement cannot be reached." "That suits me," replied Fitzsimmons, "I want nothing but what is fair to both and if I have a man present when the agreement is made, that is all I can ask.

Stuart left the Fitzsimmons camp with the positive assurance that Fitzsimmons will be represented at the conference in his office late today. The consent of the Corbett people was obtained without any trouble. James J. Corbett had intended to send a letter to George Siler, the referee of the fight, regarding his opinion of the latter's construction of Marquis of Queensberry rules, but the plan for a conference changed matters.

"I am not going to say anything at the present," said Corbett, "but the conference will settle things. IMPORTANT DECISION.

Judgment For a Beneficiary Against the Knights of Pythias.

SPRINGFIELD, Ills., March 12.-Judge Shirley, in the Sangamon circuit court, has made an important decision in an insurance case. The case was that of Mrs. Louise Henry, who sued the supreme lodge, Knights of Pythias, of the her husband, Charles Henry. The defense was that a by-law of the supreme lodge exempted suicides from benefits from the insurance, but the plaintiff proved that the by-law was not made by the supreme lodge, but by the board of control, and then ratified by the supreme lodge. Judge Shirley held the by-law was not binding on Henry unless the supreme lodge made it, and in-

structed the jury to find for Mrs. Henry. WARDEN HAPPY STAYS.

OFFICIAL PAPER OF SEYMOUR.

JAY C. SMITH, Editors and Publishers.

FRIDAY, MARCH 13, 1897.

TERMS OF SUBSCRIPTION

OWEEKLY. one Year in Advance Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

REPORTS from Cuba indicate that Weyler has been authorized to end the war in Cuba immediately on any terms even to selling the island to the insurgents if necessary.

THE city council did well last night in passing a curfew ordinance. The sen timent is very general in favor of the ordinance. It will now rest on the police officers to see that it is properly enforced as soon as it becomes operative by proper publication.

A GREAT majority of the people o' the United States want the tariff question settled speedily by the special session of congress. The quicker this is done and the deficit in the treasury stopped, the sooner will business revive and people rejoice in the old time prosperity

ONE reason why we may expect good times to return is that everybody is expecting them and preparing for them The people, democrats and populists as well as republicans are feeling more hopeful of the situation than they have ione during the last four years.

McKinley is selecting his official as sistants with a great deal of care and with too much deliberation to suit the anxious office seekers. The country has approved his course thus far and the people have full confidence in the president's ability to do the best thing the city in an economical manner and for them all along.

During the last four years the bonded lebt of the United States has been increased \$262,000,000 by the bond sales. This sum will not all be paid off during the next four years but we can rest assured that it will not be increased by a single dollar. It is not the republican program to issue bonds in time of peace

No people can be insufferably op pressed by hard times who can spend a million do'lars or more on a prize fight in this most distressful month of the twelve-and that's what the American people are just about to do. It is within a conservative estimate to place the cost of the Carson City mill at \$1,000,000. This includes the cost of providing place and the cost of getting to it, as well as the expense connected with securing the principals.

THE St. Louis Globe-Democrat says the opening of the spring wholesale trade in that city has surpassed all expectations and all previous years. "The spring of 1897," it says, "has proved a red letter season in the city's commercial history." St. Louis has a large Southern trade, and this moves somewhat earlier than Northern trade. "The ouyers from the extreme South," says the paper, "have, as a rule, made their purchases and left for home. And these purchases were much heavier than any they made in years past. The general feeling of prosperity which prevails in the South and West has caused the merchants to lay in exceptionally large stock." The general conditions which have caused this improvement in the trade of one city ought to be felt bene ficially in all.

ALREADY our Cuban policy seems to be clearing up. There is not that air of mystery about the arrangements that the Cleveland administration constantly kept up. Secretary Sherman rightly club. I do get awfully tired of Shakesbelieves that the people should know what arrangements have been made with the Spanish authorities concerning the capture and treatment of allege American citizens. All alleged Ameri can citizens arrested with arms in their hands are to be tried by the tribunal designated by treaty, while those Amer cans who are believed to be simply nuisances are to be turned over to the United States consul-general to be sent out of the country. The Spanish authorities evidently realize that there is a new hand in charge of the government and that practices which were permitted under the Cleveland administration will not be attempted now.

When bilious or costive, eat a Casca ret, candy cathartic, cure guaranteed

Lydia E. Pinkham's Vegetable Compound Will cure the worst forms of female complaints, all ovarian troubles, inflammation and ulceration, falling and displacements of the womb, and consequent spinal weakness, and is peculiarly adapted to the change of life.

Every time it will cure Backache. It has cured more cases of leucorrhœa by removing the cause, than any remedy the world has ever known; it is almost infallible in such cases. It dissolves and expels tumors from the uterus in an early stage of development, and checks any tendency to cancerous humors. Lydia E. Pinkham's Liver Pills work in unison with the Compound, and are a sure cure for constipation and sick headache. Mrs. Pinkham's Sanative Wash is of great value for local application.

REPAIR THE ROADS.

Many of the gravel roads and bridges in the county are badly out of repair since the recent rains, causing much nconvenience. It is the duty of the county commissioners to look after hav ing repairs made as rapidly as poss ble. It is especially the duty of Commissione: Buhner to see that the roads entering Seymour are made passable at an early day. It is not necessary that these should be left until all the others in the county are repaired. A force of men should be put to work making the repairs now and Mr. Buhner should see that this is done without delay.

THE present city administration making an excellent record. The interest of the city are not neglected by these men whon the people have chosen as their official representatives. They do business in a business 1 ke way as evinced by the council meeting last night. They administer the affirs of needed and valuable improvements.

IDENTIFIED IN ADVANCE.

Why She Was Convinced That the Dead Man Was Not Her Husband.

Notwithstanding she was not a dame of high degree, she was a woman of character, and there was a peculiar aggressiveness in the freckle on her nose which made the police officers on duty at the station house step around lively when she called on a matter of business. "I understand," she said to the sergeant, "that there's the body of a man

waiting to be identified here." "It is at the morgue, madam." responded the sergeant, but with more suavity than is common.

"Well, my husband hasn't been at home for three days, and I thought it might be him. Can you tell me what he looks like?"

"Yes; but you could get a good deal more satisfaction by going to the morgue yourself, ma'am.

"I suppose I could," she sighed as if she felt sure she would not identify the remains as those of her husband. "Was he killed?"

"Oh, no, ma'am," exclaimed the sergeant. "He died suddenly. The patrolman saw him fall on the street." "Died sudden, dld he?" she asked with interest.

"Yes, ma'am," Her tone indicated that she thought the police were to blame in some way. "Well," she said, "there's no use in my going to the morgue if that's the case. It ain't my husband. He never done anything sudden in his life. He's the slowest man on earth. Goodby,' and she walked out of the station house as if she were sorry about something. -Washington Star.

And Once She Railed at Clubs. She sighed deeply as she picked up ner engagement book and began idly

turning over the leaves. "I'm utterly worn out," she said, and tomorrow afternoon our Cinch club meets too."

"Better resign," he returned. "Oh, I couldn't do that if I want to be in the swim, " she protested. "Besides I enjoy the Cinch club more than I do the Whist club, and if I felt that I could resign from anything I would leave that-or-or the Shakespeare peare sometimes.'

"I should think you would," he an-

swered. "The Physical Culture club wearies me at times too," she added. "I think t calls for a little too much exertion from one who has so much else to do, but it's all the rage now. Then there's the Cooking club, and the Literary club, and the Political Science club, and the Bicycle club, and the Dress Reform club, and the Dancing club, and the two charity associations, and the gymnasium class, and the Debating club, and the Sewing society. I'm beginning to think there are too many.'

"On the contrary," he replied thoughtfully, "I think you need one more, and I would suggest a hickory She didn't speak to him for half a

day, but it is a matter of record that she resigned from several clubs. -Chicago Post. Wright's Celery Tea regulates the ver and kidneys, cures constipation and sick headache. 25c at all druggists.

COUNTY TREASURY ROBBED.

Four Hundred Dollars and Four Thousand Pennies Secured.

LAGRANGE, Ind., March 12 .- Burglars entered the county treasurer's office here, forcing an outside window, and using dynamite in breaking the vault door and the inside safe. Four hundred dollars were secured, beside 4,000 new pennies. A sachel was afterward found near the railroad bridge, north of this city, containing 3,000 of the pennies. The authorities of other cities have been notified to look out for the burglars.

MAYOR'S DOWNFALL

Bowling Green Official Gets Drunk and Is Locked Up. BOWLING GREEN, O., March 12 .-

Mayor Campbell went on a spree and was placed in the city lockup. He has been a strong advocate of temperance and on several occasions has criticised the police for not enforcing the closing ordinance. He was a reformed tippler. He was placed in the cell with an unfortunate fellow he had fined and given 20 days in the works. The mayor was insensible for some time and was surprised when he woke up. In court he fined himself in order to avoid the no toriety of going before a justice. The public is very wrath that the official dignity of the town has been disgraced. Mayor Campbell may be forced to re-

Young Farmhand Found Dead In Cornfield Near Marshfield.

MARSHFIELD, Ind., March 12 .- John Watson, a farmhand employed by Alfred Duncan, west of the state line, was found dead in a cornfield with a bullet hole through his head. No pistol was found near the body and it is supposed that he was murdered. He had no money in his possession when found and was not known to carry any large amount. Great excitement prevails.

Assaulted the Prosecutor.

RENSALAER, Ind., March 12 .- It is now believed that instead of highway at the same time are making many robbery, the assault upon Prosecutor A. E. Chizem, Tuesday night, was instigated by revenge. Warrants have been sworn out for men under suspicion for the assault, one of whom Mr. Chizem prosecuted to a conviction sometime ago. It is believed that there was a plot to make the prosecutor a victim of foul play.

WILL READ HER FATHER'S POEMS. Eugene Field's Daughter to

Take the Platforn Early next fall Miss Mary French Field, the eldest daughter of the late Eugene Field, will make her first appearance as a public reader and will, in a large measure, carry out the programme which her father had arranged for himself. Miss Field will doubtless be well received, for she is a tall, handsome young woman of 20, possessed of a fine figure, a good stage presence and much of the magnetic personality which made the poet laureate of childhood sc

If You can't think what to buy for Christmas, let us show you a beveled plate glass. Hand carved. Solk cak, universally popular. Miss Field is known among her friends by the affectionate diminutive 15 DOLLARS

of "Trotty," a pet name given to her by her father when she was a baby and which has been applied to her ever since. 'Trotty'' was fairly idolized by her father, and she was deeply interested in his literary work. One of his most successful books bears the following dedication: "To my severest critic, my most loyal admirer and my only daughter,

Mary French Field, ' Miss Field has prepared for her work by a year's study under the instruction of a prominent Delsartean teacher. She has been carefully educated, too, having studied in Germany. She will go out under the management of George H. Yenowine, who was the manager for many years of her father's tours as well as his intimate friend. Scores of engagements have already been offered and her success is confidently expected. Her debut will probably be made in Cincinnati.

Miss Field will give readings from her father's works exclusively, and her repertory will include both poetry and prose. She has frequently entertained the members of her family and friends by reciting these selections, which she is said to give with a good deal of sympathy and delicate appreciation. Her object is to add to the family income, for while Mr. Field left a fine home, a magnificent library and almost a fortune in curios, he had accumulated no large amount of money, and the Field family has been dependent upon the royalties from several books which bring in a steady but hardly a sufficient in come. Miss Field, with praiseworthy pluck, has determined to make her own yay in the world.

THE INDIANAPOLIS NEWS

A Short History of Indiana's Greatest Newspaper.

Whatever excels interests. The loftiest mountain, the longest river, the largest city. Yet keener interest attaches to the greatest achievements of men-in oratory, statesmanship or war. The sharpest contest these days is between newspapers, demanding the greatest diversity of gifts, of knowledge and sagacity. In other fields the decision is doubtful, but in journalism the nual address. In the evening a sermon popular verdict is practically registered was preached by Rev. C. C. Pfund of each day in the subscription list-a sort of Australian Ballot System. This test shows The Indianapolis News to have more bona fide readers than any other four Indiana Dailies combined. This makes good the above title head. The whole State may indulge pride in another point scored by The News: it is conceded to have more circulation proportioned to population than any other American Daily. Whether this signifies greater enterprise in The News or a more intelligent reading people, or both is a question. No phenomenon exists without its adequate cause. The News itself gives two main reasons as

News itself gives two main reasons as follows;

(i) When The News began, twenty-eight years, ago, every paper had its political alliance, slavishly espousing one party with its principles and candidates against all others, looking to that party in turn for support and patronage; the highest ambition was the organship of its party in State, district, county or neighborhood. The News believed that such relationship not only brased the editorial mind, but unconsciously, if not consciously, tinted and colored the news columns, leading to the magnifying of what tended to help, and minimizing or suppressing what hurt the party. The News, therefore, swung loose from all entanglements and blazed a new way—absolute independence, not neutrality, which means the opposite; criticised men or measures of either party; always teok sides, with a choice even between evils; distinguished between the freedom and slavery of independence; not hesitating to ally itself with either party in turn to bring in reforms or break down abuses. While this course meant no political patronage and usually the anger of both parties at the same time, it found marvelous response in the universal American instinct of independent thought. It compelled respect and opened the door for readers in the ranks of all parties. This meant preponderance of circulation, which, in turn, means preponderance of advertising. (2) The News was the first 2-cent paper in the West, all others 5 cents. Against universal prophecy that it could not live at such a price, it is now 25 per cent. larger, taking the six week day issues together, than any other Indiana daily, and sells at 10 cents a week delivered anywhere by carrier or mail, postpaid, against 15 cents a week, which is charged for the next best Indiana daily. No other paper in the State, at whatever price, now pretends to furnish equal quantity and scope of intelligence—a volume of telegraphic news and diversions for the farmer and business man, every day it is estimated that not less than 150,-

"Democracy has no love of country, elieves in states instead of nation, drives loyalty from its doors and welomes treason to its habitation, holds the deeds of our soldiers and sailors as paught, strives to blacken the names of our heroes, weeps over the lost cause, hates the blue and loves the gray, stabs loyalty in the back, binds up the wounds of treason and speaks words of hope and comfort to its devotees, applauds when helpless blacks are stricken down in the south and caresses the hands red with their innocent blood, denies the right of American citizens to make homes for themselves in the south, justifies the man who shoots them down or drives them out.

"Democracy is a curse to the land, the source of our bitterest woes, the haven where vice finds friends and crime its apologists and defenders. Democracy is original sin let loose to rend and destroy, is the spirit of evil filling the swine of the land, the incar nation of unholiness, the child of the devil. Its home should be in that outer darkness where there are weeping and wailing and gnashing of teeth. Such, faintly ictured, my friend, is what is the matter with the Democratic party. Sheridan picked up the thread of his

speech at the point where he had been interrupted. He was asked no more questions during the evening.

HOW TO FIND OUT.

Fill a bottle or common water glass with urine and let it stand twenty-four nours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order What to do.

There is comfort in the knowlegde so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remely ulfills every wish in relieving pain in back, kidneys, liver, bladder and every part of the urinary passages. It corrects inablility to hold urine and scalding pain passing it or bad effects following use of liquor, wine or beer, and overcomès that unpleasant necessity of be ing compelled to get up many times during the night to urinate.
